

Data Flow Diagram

The data flow shows how information moves through Weather Wise AI, from the user's request to the final insight.

Level 0 Data Flow

Step	From	Data	To
1	User	City name or location	Weather Wise AI application
2	Application	Weather data request	Weather API
3	Weather API	Current and forecast data	Application
4	Application	Weather data and prompt	AI model
5	AI model	Plain-language summary and suggestions	Application
6	Application	Forecast, summary and alerts	User

Data Stores

- Saved cities and preferences (optional local storage).
- Cached weather responses to reduce repeated requests.
