

Customer Journey Map

The journey map shows how a user moves from needing weather information to acting on it, and where Weather Wise AI helps at each step.

Stage	User actions	Touchpoint	Feeling	Opportunity for Weather Wise AI
Awareness	Wonders if it will rain or how hot it will be	Phone, search, word of mouth	Curious, uncertain	Quick and clear weather answer on first open
Search	Enters city or allows location	Search bar, location access	Hopeful	Auto-detect location, fast results
Understand	Reads forecast and AI summary	Dashboard, AI insight card	Relieved or informed	Plain-language advice instead of raw numbers
Act	Plans clothing, travel and outdoor work	Suggestions, alerts	Confident	Personalised tips and timely alerts
Return	Checks again before next trip	Notifications, saved cities	Trusting	Saved locations and reliable alerts
